HISTORY OF THE DEPARTMENT

The Department of Zoology was established in the year 1972. Over the decades, by virtue of the commitment and the good work done by the staff, the Department has become one of the Star Departments of our college. The Department provides the right platform for the students to have a strong fundamental knowledge on the biology of animals, the way they live and interact, develop, carry out vital functions and evolve as different groups. With this strong foundation that they acquire here, many of our alumni excel in their careers. The Department started DAMLT- Diploma in Advanced Medical Lab Technology (UGC Career oriented programme) in 2008, M. Sc. Zoology in 2012 and upgraded to research Department in the year 2018. In these years, Department of Zoology has established excellent faculty strength, State of art Lab, a first-rate infrastructure and an amiable ambience to do research as evident from excellent publications and societal contributions to healthcare. The Department has received grant from DST-FIST and DBT Star College Scheme. The current areas of interest in Biology have been incorporated into the curriculum to make our students compete globally.
