Cam Scanner App

1. Scan all the written pages
2. Select all the pages
3. Convert PDF format
4. Select (small 8.46MB)

The screenshot shows the Cam Scanner app interface. At the top, it displays the time 6:52 PM, battery level at 60%, and a "New Doc" title with the date and time "2020-09-06 20:55...". Below the title, there are two scanned pages of a document, with question numbers 41 and 42 visible. A dialog box is overlaid on the right side of the screen, displaying the message "File size exceeds 1 MB. You can downsize it" and offering three options: "Original size (16.92MB)", "Medium (11.85MB)", and "Small (8.46MB)". At the bottom of the screen, there is a "Create Doc Collage for multiple pages" button and a camera icon.

The image shows two sequential screenshots of a Google Forms interface for uploading a PDF file. The top screenshot shows the initial state with an 'Add file' button and a 'Submit' button. The bottom screenshot shows the file '185208201-Quan...' uploaded, with a 'Submit' button highlighted and a callout box pointing to it. A footer note reads 'Never submit passwords through Google Forms.'
