Respected Sir/Madam,

First of all I would like to thank you for providing me the best results of my test samples on time. The test results were of best quality which helped me to complete my project successfully. It was such a clean and hygienic lab which I was impressed with when I visited for the first time. I was really happy to see all the instrumentation facilities available at HAIF, which were of great use for testing my samples for my project work. Not only the quality of tests but also the service provided by the technicians at Heber Instrumentation facility is undoubtedly appreciable. The price of each tests available there was surely of fair price. Such a good instrumentation lab within the campus encourages me to proceed further in research field enthusiastically. Once again I thank and appreciate for your great work.

Thanking you ,

Yours sincerely,

Sivagandi
