Respected sir,

It is a great joy to express my sincere appreciation for your tireless effort in getting me high quality results of UV-Visible and PL for my samples. I was extremely happy by the turn around time. The staff of the instrumentation facility are very responsive and efficient. The results were presented with sufficient information, technical background and were well categorized, all for a fair prize.

I look forward to perusing additional work with your lab in the future.

Thank You
