

REPORT OF

DEANERY OF EXTENSION

(2021-2022)

BISHOP HEBER COLLEGE (AUTONOMOUS)

(Affiliated to Bharathidasan University)

*Nationally Reaccredited at the 'A' Grade by NAAC with a CGPA of 3.58 out of 4
Recognized by UGC as 'College of Excellence'*

Tiruchirappalli – 620 017

Deanery of Extension Activities

Deanery of Extension Activities works on three areas, namely, with students through Part V Clubs, with community through adoption of villages and with the management through accomplishing the requirements of UGC and NAAC. There are 30 Part V clubs which work for and through students. At the student level, the clubs engage the students in their own areas of work, besides moulding their personality and honing their inter-personal skills. The clubs also provide manpower in organizing programmes of the College and government and private bodies. At the community level, the Deanery has adopted the villages which come under Eight Panchayats namely, Navalur Kuttapattu, Ariyavur, KumaraVayalur, Palur, Allur, Pothavur, Anthanalur and Kodiyalam based on certain criteria. The villages are needy and deserving in nature, attract minimal or meager support from the government and there is no notable involvement of voluntary or community-based organizations. The important target groups are women, children, youth and older persons apart from the community members as a whole. Major emphasis is given on water and sanitation, promoting safe water and toilet usage.

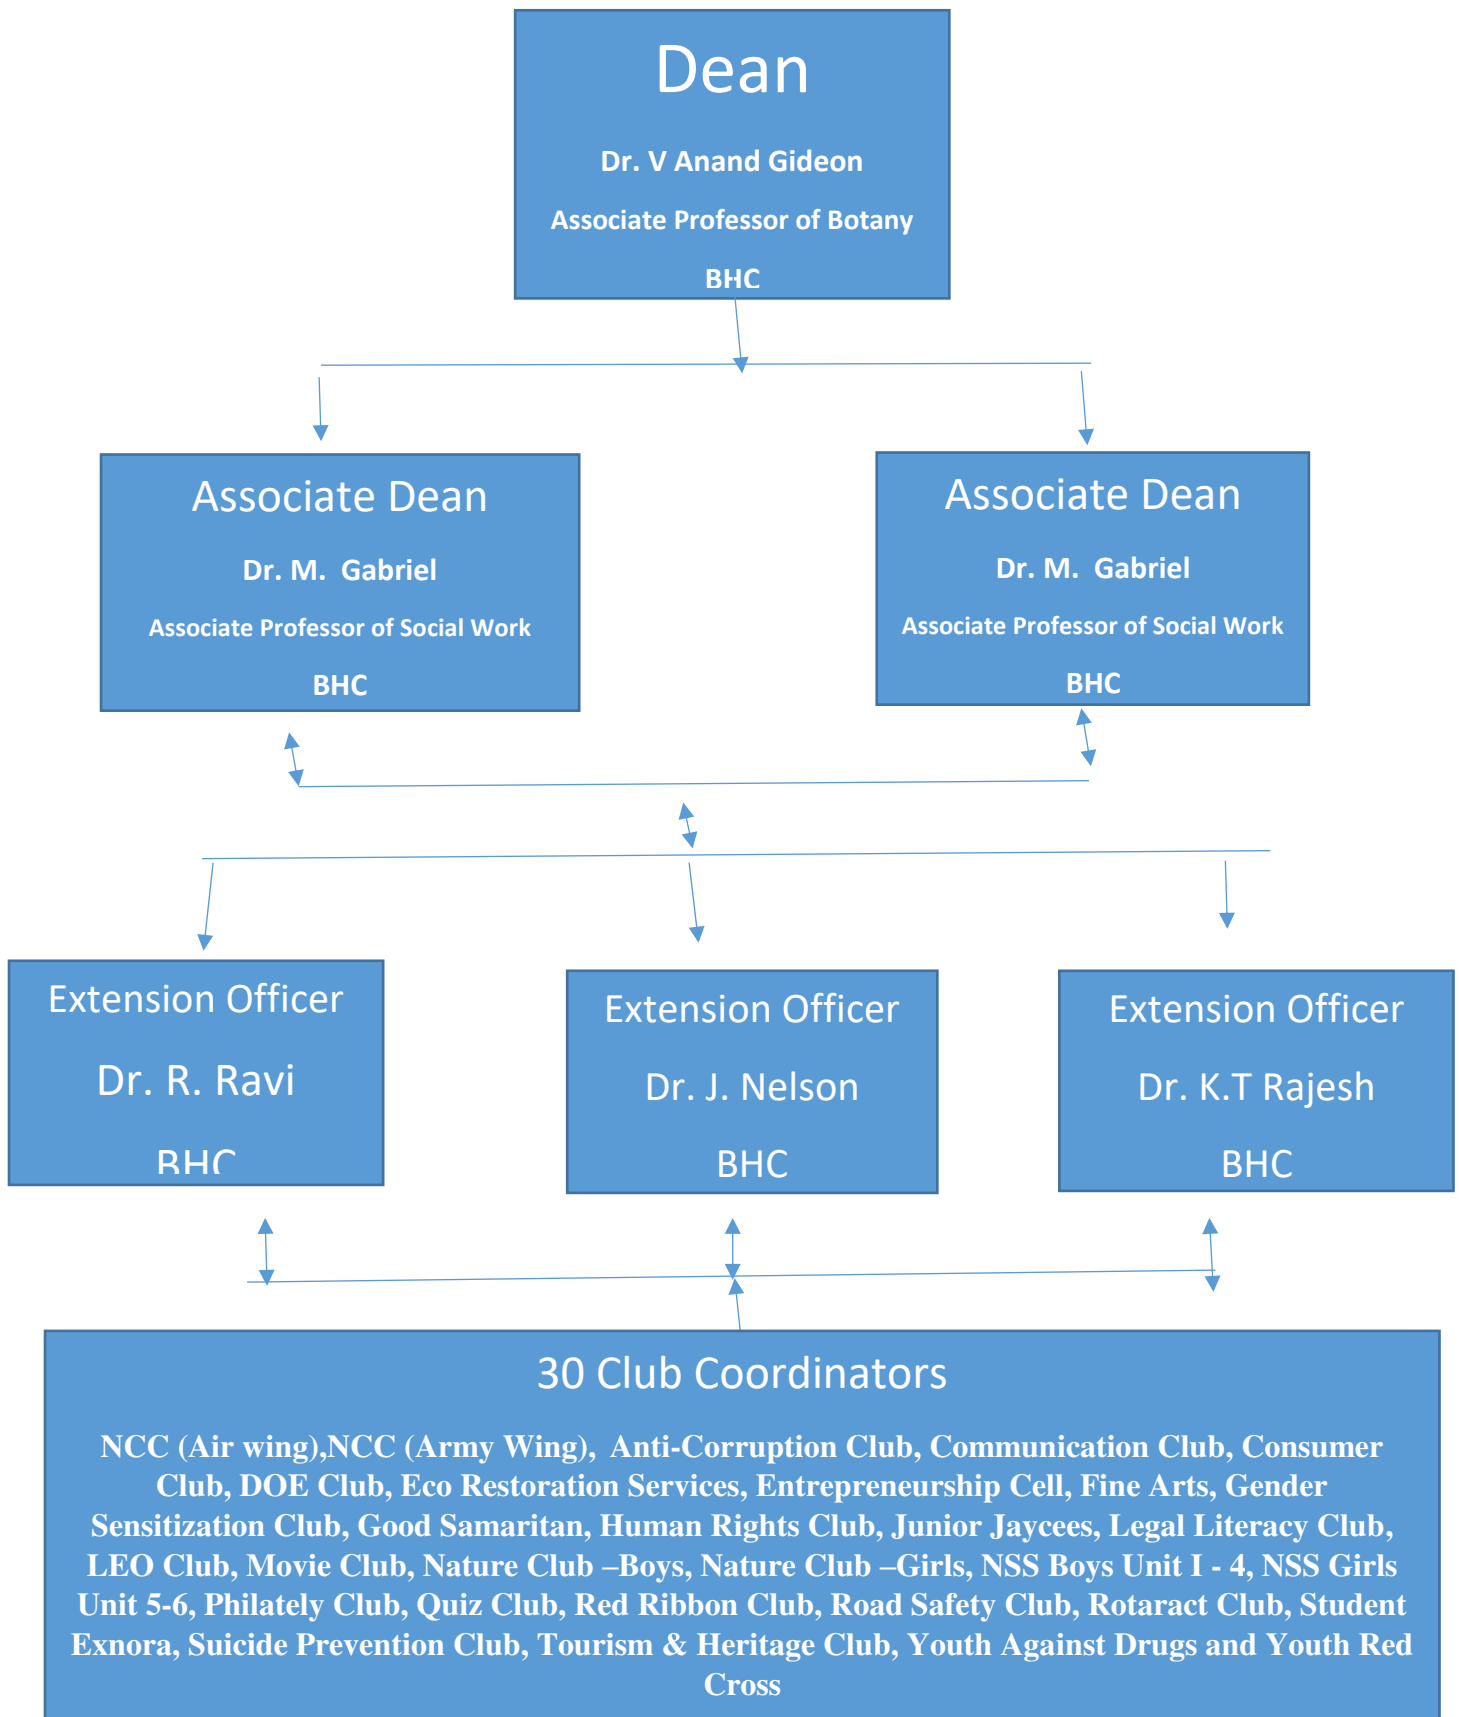

The Deanery makes sure that the members of 30 different clubs are actively involved in their service to the society and one full time, two part time Extension Officers are appointed by the College for continuous monitoring. Generally, the programmes are organized with the financial support from the College Management and sometimes the clubs raise funds from local resources. The Deanery, as its future plans, attempts to implement continuous and long-term programme by adopting three-pronged approach viz., creating employment opportunities, promotion of health and ensuring educational and infrastructural support. The future programmes will focus on skill training for both women and youth, medical care facilities for women, children and older persons; special concentration will be given on school students who will be provided with educational kits. Participation of students in extending services to the village community would be ensured with the active involvement of

Part V Coordinators.

The Deanery also works in coordination with the Trichy Corporation and other State and Central Government Departments extending its service to Swacch Bharat Campaign and Unnat Bharat Abhiyan. Our College is a participating institute of Unnat Bharat Abhiyan (UBA) sponsored by MHRD, Government of India. Under UBA, five villages are adopted to carry out developmental works under the themes such as Organic Farming, Water Management, Renewable Energy, Artisans, Industries, Livelihood and Basic Amenities.

Apart from gaining knowledge from within the four walls of the class room, students get a lot of opportunities to develop their communication skills, soft skills, organizing skills and interpersonal skills. They also get opportunities to serve the village communities in the adopted villages and thus contributing their mite to build the architecture of an inclusive India. While the academic activities train the minds of the students, the Extension Activities train the hearts of the students and when they leave the portals of the College they leave as complete human beings.

Organizational Structure

Denary of Extension Activities
BISHOP HEBER COLLEGE (Autonomous)
Tiruchirappalli
Minutes of the Part V Club Committee Meeting

Date : 01 September 2021

Venue : Deanery Office

Members Present : Dr. Anand Gideon , Dean

Dr. Gabriel M, Associate Dean

Dr. Sam Deva Asir RM, Associate Dean

Dr. Ravi R, Extension Officer

Dr. Nelson S, Extension Officer

Opening Prayer : Dr. Sam Deva Asir RM, offered the opening prayer

Welcome Address : Dr. Anand Gideon, welcomed the gathering and informed the purpose of the meeting.

Discussions :

- a) **Model School Concept**: Sir, thanked the Management and the Officers for the Diocese for the support in initiating the Model School at the SPG Primary School- Woraiyur.
- b) **Covid Task Force**: Thanked the Clubs and the incharges for the contribution and support for the Covid Task Force Assignment during the Second wave
- c) **Orientation Programme & Registration**: To provide online orientation to the first year students about various Part V clubs and through the respective class teachers and to update the last years PPT used for orientation in the Last week of September 2021.
- d) **Student's enrollment**: To get the students enrollment details from the College office to finalize the allocation of students for each club.
- e) **Updating of Staff In-charges**: To update the staff in-charges of the clubs (additions and deletions) in consultation with the Principal sir.
- f) **Club Coordinator's Meet**: To organize a Club coordinator's Meet in the 2nd week of October 2021 to have discussion on how programmes can be organized in this semester.
- g) **Extension Coordinator**: To request the HoD to depute one faculty as Extension Coordinator in their Department to coordinate the Extension activities of the Department.
- h) **Model Village Project**: To initiate the Model Village Project at the earliest at Kumaravayaloor.

Digital Literacy Programme

The Extension wing of Bishop Heber College and Redington Foundation (National Level Non-Governmental Organisation) jointly organized a Digital Literacy Programme to the different stake holders (Gardeners, College Attenders, NCC Army wing Students, Air wing students, Self-Finance section Staffs, Aided section Staffs, Security staffs, CSI Good news ITI students, IT Support staffs, Diocesan School teachers, Community People, Community students, 100 days workers, Government School students and Self Help Groups members) from Trichy district, Tamilnadu state. The programme was conducted from on 11th August 2021 to 11th October 2021 (66 batches – reaching 1300 people).

The following department has conducted Extension activities

- 1) Department of Commerce at Government Higher Secondary School, Vaaladi
- 2) Department of Library Science at District Central Library, Trichy
- 3) Department of Computer Application at Government Primary School, Aiyyampalayam.

The digital literacy training programme was successfully conducted through the WOW (World on Wheels) bus, specially designed for Digital Literacy Programme through Redington Foundation – A CSR activity of HP Company. This bus contains 21 computers with smart board attachment and the internet connections. This bus purely designed for the rural children and other peoples.

The resource person Mr. Bernat Stalin from Redington Foundation gave the training to the participants in Ms Word, Ms Excel and Zoom class room programme. The different stake

holders actively participated and interacted with resource person. In below we have attached details of the programme.

Tiruchirappalli – 17

invite you for the
Launching of
ENTREPRENEURSHIP DEVELOPMENT PROGRAMME
for the Model Village at
Kumara Vayalur
and
Dedication of
BANANA FIBRE EXTRACTING MACHINE

Wednesday, 26.01.2022 @ 08.00 am
Venue : Bishop Heber College, Tiruchirappalli

by
Rt.Rev. Dr. D. CHANDRASEKARAN
Bishop & Chairman, College Governing Body

presided by
Dr.D. PAUL DHAYABARAN
Principal, Bishop Heber College
Tiruchirappalli

overview of the Project by
Dr. V ANAND GIDEON
Dean for Extension Activities
Bishop Heber College, Tiruchirappalli

On

the

occasion of 73rd Republic Day Celebrations, Deanery of Extension Activities, Bishop Heber College launched the Entrepreneurship Development Programme for the Model Village at Kumara Vayalur on 26.01.2022. As part of the program Banana Fibre Extracting Machine was dedicated by our Chairman Bishop Rt.Rev. Dr. D. Chandrasekaran in the presence of the Principal, Vice Principals, Bursar, Deans, HoDs, Staff and students of our College.

As the Model Village and the adopted villages are considered the Banana cultivation hub. This will empower the rural women and community in Vayalur and surrounding villages. The Banana Fibre processing unit will serve as the Incubation Centre at the Model Village Kumara Vayalur, for the Deanery will train the SHG members in the adopted villages around Kumara Vayalur (Model Village) in making Banana fibre and help them to develop entrepreneurship opportunities. After the extraction of the Banana fibre, the pulp from the Banana stem will be composed for making compost bio fertilizer.

Chairman and Principal Sir appreciated the Deanery of Extension Activities for extending the services for the upliftment of neighborhood communities.

• BANANA SAPLING NURSERY UNIT

As a part of Extension activity, a Banana Sapling Nursery was established at CSI Retreat Centre at Murungapettai (Karur Bypass), Tiruchirappalli in collaboration with National Research Centre for Banana. NRCB have transferred a low-cost technology module to enable mass production of suckers (a shoot that develops from a lateral bud on the rhizome and

emerges from the soil usually near the parent plant. Dr. R. Karthic, Project Coordinator, elaborated the business model using this technology. “A 20 x 10 feet nursery unit can produce 6000 plants in three cycles per year and a plant can be sold at the rate of Rs. 10/-.

- **SIGNING OF MOU WITH BANANA RESEARCH CENTRE FOR BANANA (NRCB)**

Speaking at the MoU signing ceremony held at the ICAR-NRCB's Institute Technology Management Unit, Dr. S. Uma, Director, NRCB, said, “Tiruchi district has about 10,000 hectares under banana cultivation. Conventionally, suckers are used to propagate traditional varieties. However, with the poor selection of suckers, disease spread is rampant and leads to more than 20-30% yield loss. We have developed a low cost and farmer-friendly banana nursery technology to meet the planting material demand and also provide entrepreneurial avenues for rural youth.”

Dr. S. Backiyarani and Dr. M. S. Saraswathi are the principal scientists and co-inventors of the technology. Ms. Backiyarani explained that a minimum of 10 to 25 healthy plants may be obtained from the single sucker within the period of three to four months. “The plantlet can be produced throughout the year without any seasonal barriers”. The MoU was signed by The Director of NRCB and the Principal of our College in the presence of Scientists, NABARD officials and Associate Deans and Staffs from Botany Department.

THE HINDU

College takes up banana sucker cultivation project

NRCB officials and staff of Bishop Heber College at the technology transfer ceremony.

**SPECIAL CORRESPONDENT
TIRUCHI**

In a bid to meet the demand for planting material and also generate rural employment, scientists at the ICAR National Research Centre for Banana (NRCB) have transferred a low-cost technology module to enable mass production of suckers (a shoot that develops from a lateral bud on the rhizome and emerges from the soil usually near the parent plant) to Bishop Heber College this week.

Speaking at the handover ceremony held at the ICAR-NRCB's Institute Technology Management Unit on Monday, S. Uma, Director, NRCB, said, "Tiruchi district has about 10,000 hectares under banana cultivation. Conventionally, suckers are used to propagate traditional varieties. However, with the poor selection of suckers, disease spread is rampant and leads to more than 20-30% yield loss. We have developed a low cost and farmer-friendly banana nursery technology to meet the planting material demand and also provide entrepreneurial avenues for rural youth."

S. Backiyarani and M. S. Saraswathi are the principal scientists and co-inventors of the technology. Ms. Backiyarani explained that a mi-

nimum of 10 to 25 healthy plants may be obtained from the single sucker within the period of three to four months. "The plantlet can be produced throughout the year without any seasonal barriers," she said.

"The plants obtained through this technology are genetically uniform and a good alternative to conventional suckers. They could complement tissue culture plantlets," said Ms. Saraswathi.

R. Karthic, project coordinator, elaborated the business model using this technology. "A 20 x 10 feet nursery unit can produce 6,000 plants in three cycles per year and a plant can be sold at the rate of ₹10," he said.

Paul Dhayabaran, principal, Bishop Heber College, and Anand Gideon, Head, Department of Botany and Dean of Extension Activities, received the technology transfer on behalf of the institution. Staff and students of Botany department will receive training from NRCB in the mass production technology at the college's poly-house nursery established in Murungapettai. The banana suckers will be eventually supplied at a low cost to the villages adopted by the Deanery of Extension Activities.

- DEDICATION OF PHYSICALLY CHALLENGED FACILITY (PCS FACILITY)

The Bishop and Chairman of college Governing Board offered Prayers and dedicated the PCS facility to the college. This facility is a Zero Emission Battery Operated Vehicle with 6-seater capacity. The newly added facility will be used for movement of Physically Challenged Students inside the campus. The facility will also be used for transportation of Recyclable materials to the Resources recovery facility of our college. The Principal, Dr. D. Paul Dayabaran, Vice Principal, Prof. A Alagappa Moses and Officers of Diocese graced the dedication programme. Deanery of Extension Activities made arrangements for the installation of the facility.

The facility is partially funded by the Alumni contribution of College NSS and NCC units of Extension Activities.

- **LIVE PROGRAMME ON RAINBOW FM ABOUT EXTENSION ACTIVITIES**

A live programme was organized by Rainbow FM, Tiruchirappalli on March 17, 2022 from 3 pm to 3.30 pm. Dr. Sam Deva Asir RM, Associate Dean talked about the Activities of Deanery and Social Responsibility. Dr. R. Ravi, Extension Officer talked about the Adopted village and Government schemes for Rural Empowerment and Mr. Sivakumar, Proprietor, KP Enterprises spoke about the value added products and Women's contribution for sustainable development. The Programme was well received and appreciated by the receivers.

- **A PROJECT TO EMPOWER RURAL WOMEN – SHG TRAINING ON VALUE ADDED PRODUCTS**

A socio-economic incubation project in Kumara Vayalur village promises to empower rural women by training them to draw fibre from the pseudo-stem of the banana plant, a part that is often discarded or sold by farmers for nominal prices in the market. The programme on banana fibre extraction, which included installation and operation of the 'Banana Star' extractor machine, was organised by the Deanery of Extension, Bishop Heber College in collaboration with Tamil Nadu Rural Transformation Project, the State Department of Rural Development and Panchayat Raj.

A training programme was initiated for 15 members of a women's self-help group in Kumara Vayalur, to help them create value-added products from banana fibre. Since the district is a hub of banana cultivation, there is significant potential to develop the fibre into biodegradable goods like bags and garlands. This will also generate employment and income for women. Banana fibre bags could easily become an alternative to plastic variants, and the project could explore this further in the coming months. Banana Star, manufactured by KP Enterprise, Tiruchi, can process up to 120 pseudo-stems in an eight-hour shift. It has been certified for its efficiency by ICAR-NCRB (Ministry of Agriculture).

"This is a labour-intensive activity, and is ideally performed directly on the field, to minimise the cost of transporting the waste material, that can be used as natural fertiliser. At least three women are required to team up for the process. The machine could help banana farmers to monetise pseudo-stems. "In Tamil Nadu, the extractor costs ₹1.3 lakhs, and financial assistance is available from the government for those who want to buy it. For 100 banana stems you will get 10-12 kg of dry fibre. It may take up to 10 days for the fibres to be extracted from 1000 trees on one acre. The machine's investment can be re-earned within a year if it is used effectively. The fibre has to be dried in the shade for a day before it is ready to be used.

A project to empower rural women

Training in banana fibre extraction will help produce biodegradable goods

NAHLA NAINAR
TIRUCHI

A socio-economic incubation project in Kumara Vayalur village promises to empower rural women by training them to draw fibre from the pseudo-stem of the banana plant, a part that is often discarded or sold by farmers for nominal prices in the market.

The programme on banana fibre extraction, which included installation and operation of the 'Banana Star' extractor machine, was organised by the Deanery of Extension, Bishop Heber College in collaboration with Tamil Nadu Rural Transfor-

mation Project, the State Department of Rural Development and Panchayat Raj.

"We have initiated a training programme for 15 members of a women's SHG in Kumara Vayalur. Since the district is a hub of banana cultivation, there is significant potential to develop the fibre into biodegradable goods like bags and garlands," V. Anand Gideon, Associate Professor and Head, Department of Botany and Dean, Extension Activities, told *The Hindu*. Mr. Gideon said banana fibre bags could easily become an alternative to plastic variants, and the project could explore this

further. "We are encouraging farmers in Kumara Vayalur to buy their own extractor machines, with the help of government subsidies," he said.

Banana Star, manufactured by KP Enterprise, Tiruchi, can process up to 120 pseudo-stems in an eight-hour shift. It has been certified for its efficiency by ICAR-NCRB (Ministry of Agriculture). "This is a labour-intensive activity, and is ideally performed directly on the field, to minimise the cost of transporting the waste material, that can be used as natural fertiliser. At least three women are required to team

up for the process," said A. Sivakumar, proprietor of KP Enterprise.

Mr. Sivakumar, who is also a consultant on the Kumara Vayalur project, said that the machine could help banana farmers to monetise pseudo-stems. "In Tamil Nadu, the extractor costs ₹1.3 lakh, and financial assistance is available from the government. For 100 banana stems you will get 10-12 kg of dry fibre. It may take up to 10 days for the fibres to be extracted from 1,000 trees on one acre. The machine's investment can be re-earned within a year if used effectively," he said.

- DRIVING LICENSE FOR SAFE RIDING

The Deanery of Extension Activities in collaboration with Sun Driving School and Udhayam Driving School has initiated a proposal to train and avail driving licenses to Staffs and Students of our College at a nominal rate. So far 45 students have enrolled themselves to get trained and to avail license.

- **FLOOD RELIEF & TRAFFIC MANAGEMENT AT UYAKONDAN THIRUMALAIBRIDGE IN PUBLIC INTEREST**

The Deanery of Extension Activities in collaboration with National Service Scheme (NSS) did traffic management during the recent flood in Tiruchirappalli. This helped in reducing the traffic congestion near Uyakondam Thirumalai Bridge. The 2 days traffic management done by the College was well appreciated by the daily commuters, Traffic Department and the College Management.

- **EFFECTIVE SMART CLASSROOM TEACHING**

The Extension wing of Bishop Heber College organized programme on Effective Smart Classroom Teaching for School Teachers of CSI Primary School, Woraiyur, Tiruchirappalli (A model school of our College. The programme was conducted in the adopted School dated on 18th March 2022.

The resource person Mr. Guru Shankar, System Engineer, IT Support of Bishop Heber College gave the training to the School Teachers on Functions of Smart Class Room and Operating Systems. The school teachers actively participated and interacted with resource person. Presidential Address was given by Rev.S. Manimaran, Correspondent, CSI Primary School, Woraiyur, Tiruchirappalli

- **COMPUTER DISTRIBUTION**

The Extension wing of Bishop Heber College donated a computer to the CSI Primary School (Model School), Woraiyur, Tiruchirappalli. The programme was conducted on 10th March 2022 in the presence of Extension Officer Dr. J.Nelson.

- **THE MODEL SCHOOL EXPOSURE VISIT TO BEAUTY BISHOP**

The Deanery of Extension Activities and the PG & Research Department of Social work jointly organized an exposure visit for the students of CSI Primary School, Trichy. The students and teachers of the CSI Primary School reached Bishop Heber College around 10.15 AM by the College bus. The Students visited Vasanthan Garden, Botany Lab, Library, Computer Lab, Indoor stadium and Gym.

The students got the opportunity to explore and experience the world outside through a wider lens. In a way, this visit sparked in them the enthusiasm and determination to reach a place like this in the future. The students and teachers left the College at 01.10 PM.

ACTIVITY 1:

Name of Activity: Digital Literacy Programme for Children

Need of the Activity: Empowerment of School children, SHG women and Farmers through digital Literacy programme.

Description 200 words (along with the Pictures): The Extension wing of Bishop Heber College and Redington Foundation (National Level Non-Governmental Organisation) has jointly organised a National Digital Literacy programme to the villagers of Kumara Vayalur, the designated Model Village of Bishop Heber College Tiruchirappalli, Tamilnadu. The program was conducted from 18 to 25 August 2021(Five batch for Students, one batch for SHG women and one batch for Farmers). This village is adopted through Unnat Bharat Abhiyan scheme.

The digital literacy training program was successfully conducted through the WOW (World on Wheels) bus, specially designed for digital literacy program sponsored by Redington Foundation. This bus contains 21 computers with smart board attachment and internet connections. This bus is specifically designed for providing digital literacy to the rural communities and others.

Resource person Mr. Bernat Stalin from Redington Foundation gave the training to the participants in Basic computers, painting, Organic farming and Corona Awareness programme. The school children actively participated and interacted with resource person. Totally 104 members participated in the programme. The presidential address given by the Dr. V. Anand Gideon, Dean of Extension Activities and UBA Coordinator, Bishop Heber College. Felicitation address given by Dr. Sam Deva Asir RM, Associate Dean, Deanery of Extension Activities, Bishop Heber College.

Mrs. Manimekalai Murugesan, Panchayat President, Kumara Vayalur rendered vote of

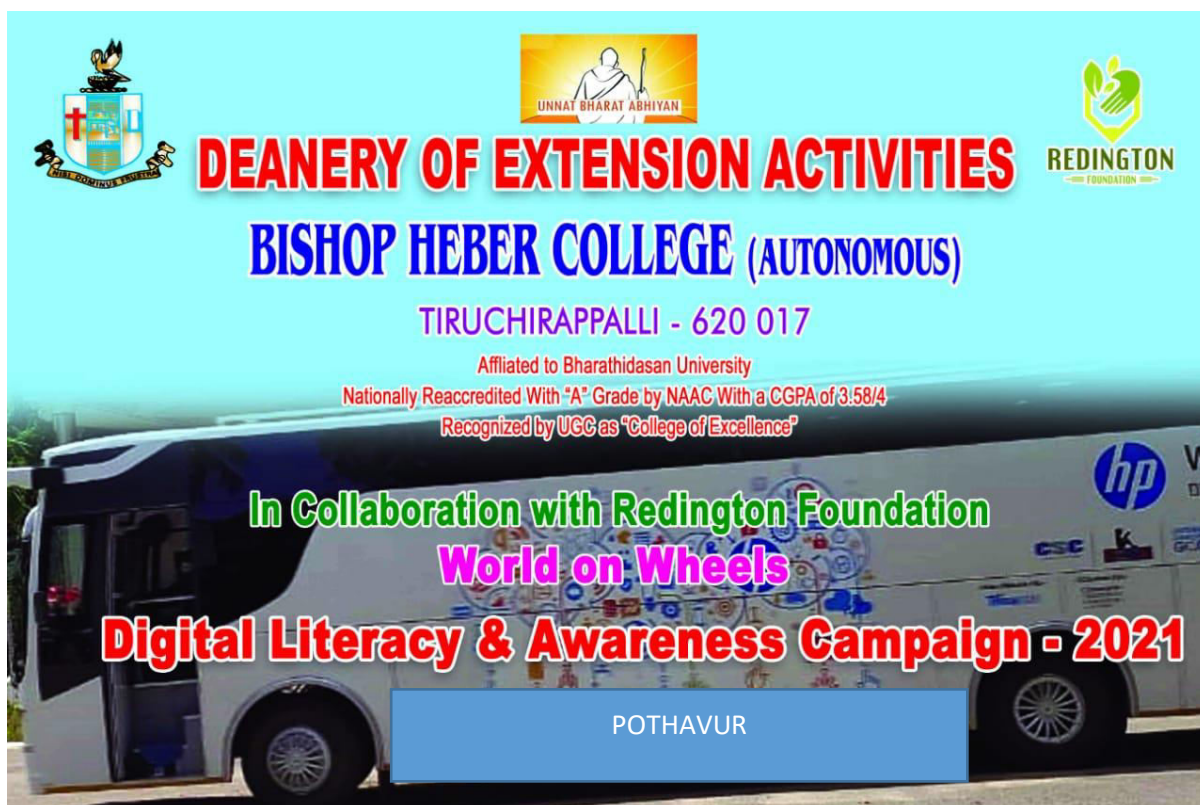

thanks.

State and Central Government schemes

Chief Guest of the programme
Ms. Priyanga
Panchayat President
Anthanalur Panchayat
Tiruchirappalli

Date: 30th August 2021
Venue: Anthanalur

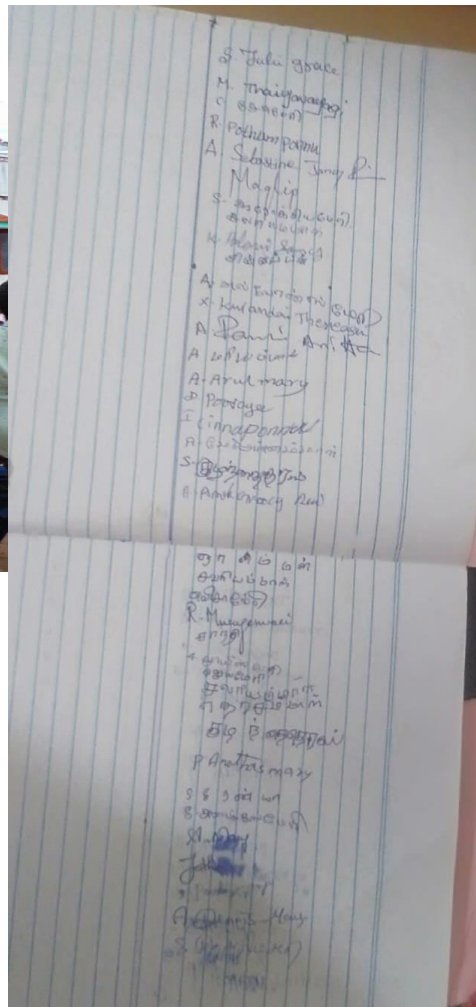

Description 200 words (along with the Pictures):

The Extension wing of Bishop Heber College and Field Publicity Office jointly organized a programme entitled state and central government schemes awareness programme. The programme was given to children, youth women and men of Unnat Bharat Abhiyan adopted village of Bishop Heber College Tiruchirappalli, Tamilnadu. The

programme has conducted in the adopted village, Anthanalur in Anthanalur Block, Tiruchirappalli from 30th August 2021 Afternoon 3'o clock.

The team (Sri Abinaya Kalai Mandram) from Chennai enacted the awareness play for the programme. The concept of this programme was to share the following government schemes Swatch Bharat Mission, Azadi ka Amrit Mahotsav and other state and central government programmes. The programme was performed through awareness dance and drama. The community people witnessed all the programme. The Govt. Field publicity officer took part in all the programmes.

The total participants are around 150 including Children, women and men. In the programmes welcome address was given by Dr. R Ravi, Extension Officer cum Assistant Professor of Social Work, Bishop Heber College. The Presidential address given by Mrs. Priyanga, Panchayat President, Anthanalur Panchayat. Bishop Heber college students 15 members and faculty members participated in the programme. The Panchayat president has organised this awareness programme. The Panchayat president thanked the College management and field publicity office for organizing such an informative programme. The vote of thanks was rendered by Dr. J. Nelson, Extension Officer, Bishop Heber College, Trichy.

Launches
Development

For the Benefit of

Description 200 words (along with the Pictures): On the occasion of 73rd Republic Day Celebrations, Deanery of Extension Activities, Bishop Heber College launched the Entrepreneurship Development Programme for the Model Village at Kumara Vayalur on 26.01.2022. As part of the program Banana Fibre Extracting Machine was dedicated by the Chairman and Bishop Rt. Rev. Dr. D. Chandrasekaran in the presence of the Principal, Vice Principals, Bursar, Deans, HoDs, Staff and students of our college.

As the Model Village and the adopted villages are considered the Banana cultivation hub. This will empower the rural women and community in Vayalur and surrounding villages. The Banana Fibre processing unit will serve as the Incubation Centre at the Model

Village Kumara Vayalur. The Deanery Extension will train the SHG members in the adopted villages around Kumara Vayalur (Model Village) in making Banana fibre and help them to develop entrepreneurship opportunities. After the extraction of the Banana fibre, the pulp from the Banana stem will be composed for making compost bio fertilizer.

Chairman and Principal Sir appreciated the Deanery of Extension Activities for extending the services for the upliftment of neighbourhood communities.

முமாயி அம்மன் சகுடி திருவிழா தொடங்குகிறது

பெற்ற மருளாளியை (சாமி ஆடுபவன்) பக்தர்கள் மேள தாளம் முழங்க அழைத்து வருவர். அப் போது கொம்பு உள்ளிட்ட வாதியங்களும் இசைக்கப்படும்.

2 பக்தர்களின் தோள் மீது அமர்ந்துபடி இருந்த மருளாளியை பக்தர்கள் ஊர்வலமாக தூக்கி கொண்டு வருவார்கள். அப்போது பக்தர்கள் நேர்த்திக் கடனாகவும், வேண்டுகளுக்காகவும் கொண்டு வந்திருந்த ஆட்டு கிபா குட்டிகள் வரிசையாக நிறுத்தி வைக்கப்பட்டிருக்கும்.

பத்தேகை உழிந்தி...

மந்தைக்கு முன் உள்ள தேரின் அருகில் மருளாளி வந்ததும் கழுத்தில் சுத்தியால் பெய்த்துவிட்டு ஆட்டுக் குட்டிகள் மருளாளியிடம் தூக்கி கொடுக்கப்படும். மருளாளி அவற்றின் ரத்தத்தை உறிஞ்சி குடித்து பக்தர்களுக்கு அருள் வர்க்கு கூறுவார்.

அரசு சார்பில் மாவட்ட நிர்வாகத்தினால் வழங்கப் பட்ட ஆட்டு குட்டியின் ரத்தத்தை மருளாளி முதலில் குடிப்பார்.

அதனைத்தொடர் பக்தர்கள் குடிக்கக் கேட்கும்.

வாழை நாரால் தயாரிக்கப்பட்ட பொருட்களுடன் திருச்சி-தஞ்சை திருமண்டலத்தின் பேராயர் சந்திரசேகரன் மற்றும் பலர் உள்ளனர்.

திருச்சி பிஷுப் ஹிப் கல்லூரி சார்பில்

வயலூர் கிராமத்திற்கு வாழைநார் பிரித்து எடுக்கும் எந்திரம்

திருச்சி, பிஷுப் ஹிப் கல்லூரியின் விரிவாக்கப் புல பணிகள் துறையின் கிராமமான குமார வயலூர் கிராமத்திற்கு தொழில் முனைவோர் திட்டத்தின் கீழ், வாழை நார் பிரித்தெடுக்கும் எந்திரம் வழங்கப்பட்டது.

இந்த அறிவினை ஏந்தி ரத்தை கல்லூரியின் ஆட்சி மன்றக் குழுவின் தலைவரும், திருச்சி தஞ்சை திருமண்டலத்தின் பேராயருமான சந்திரசேகரன் வழங்கினார்.

நிகழ்ச்சியில் கல்லூரி முதல்வர் டி.பாலதரயாரன்,

துணைமுதல்வர்கள், நிதியாளர், புல முதன்மையர்கள், பேராசிரியர்கள், கல்லூரி பணியாளர்கள் மற்றும் மாணவர்கள் கலந்து கொண்டனர்.

கல்லூரியின் விரிவாக்கப் புலப் பணிகள் துறையின் கிராமங்களிலும் அதைக் கற்றியுள்ள பகுதிகளிலும் வாழை சாகுபடி அதிகம் காணப்படுகிறது. இதைப் பயன்படுத்திக்கொள்ளும் வகையில் கிராமப்புற பெண்களின் மேம்பாட்டிற்காக குமார வயலூரில் உருவாகும் திருமண்டலப் பேராயர் சந்திரசேகரன் பின்னர் கூறியது.

இதன் மூலம் இக்கிராமத்தில் உள்ள சுய உதவிக் குழு உறுப்பினர்களுக்கு வாழை நார் தயாரிதல் பயிற்சி அளித்து தொழில் முனைவோராக உருவாக்கப்படுவர். வாழைத்தண்டில் நார் பிரித்தெடுப்பதன் மூலம் அதன் கூழ் உரமாக தயாரிக்கப்பட்டு பயன்படுத்தப்படும்.

மேலும் இந்த நிகழ்வில் வாழை நாரால் தயாரிக்கப்பட்ட பொருட்கள் காட்சிப்படுத்தப்பட்டு இருந்தது. அதை விழாவில் கலந்து கொண்டவர்கள் மற்றும் பொதுமக்கள் பார்த்து பெரிதும் வியந்தனர்.

வாழை நார் பிரித்தெடுக்கும் இயந்திரம் மூலம் பயிற்சி

திருச்சி பிஷுப் வாழை நார் பிரித்தெடுக்கும் இயந்திரம் மூலம் மகளிர் சுய உதவிக் குழுக்களுக்கு பயிற்சியளித்து சுய தொழில் தொடங்க ஊக்குவிக்கும் வகையில் குமார வயலூரில் சிறப்பு ஏற்பாடுகள் செய்யப்பட்டுள்ளன.

திருச்சி பிஷுப் ஹிப் கல்லூரியின் சார்பில் மாதிரி கிராமமாக குமாரவயலூர் தேர்வு செய்யப்பட்டு பல்வேறு மேம்பாட்டுத் திட்டங்கள் செயல்படுத்தப்படுகின்றன. இதன் ஒரு பகுதியாக தொழில் முனைவோர் மேம்பாட்டுத் திட்டத்தின் மூலம் மகளிர் குழுக்களுக்கு பயிற்சி அளிக்கவும், சுய தொழில்தொடங்க ஊக்குவிக்கவும் நடவடிக்கை எடுக்கப்படுகிறது.

அதன்படி குமாரவயலூர் மற்றும் சுற்றுப்புறத்திலுள்ள கிராமங்களில் அதிகப்படியாக சாகுபடி செய்யப்படும் வாழைவிலிக்கு மதிப்புக்கூட்டிய பொருள்களை தயாரித்துச் சந்தைப்படுத்தவும், தயாரிப்புக்குப் பயிற்சியளிக்கவும் பிஷுப் ஹிப் கல்லூரியின் விரிவாக்கப் புலப்பணிகள் துறை சார்பில் உதவிகள் வழங்கப்படுகின்றன. இதற்காக பிஷுப் ஹிப் கல்லூரி நிர்வாகம் குமாரவயலூருக்கு வழங்கிய வாழைநார் பிரித்தெடுக்கும் இயந்திரத்தை அண்மையில் நடைபெற்ற விழாவில் அர்ப்பணித்த கல்லூரியின் ஆட்சிமன்றக் குழுவின் தலைவரும்,

வாழைநார் பிரித்தெடுக்கும் இயந்திரத்தை பொதுமக்களுக்கு அர்ப்பணிக்கிறார் திருச்சி-தஞ்சை திருமண்டலப் பேராயர் டி. சந்திரசேகரன். உடன் பிஷுப் ஹிப் கல்லூரி நிர்வாகத்தினர்.

திருச்சி-தஞ்சை திருமண்டலப் பேராயருமான டி. சந்திரசேகரன் பின்னர் கூறியது.

கல்லூரியின் விரிவாக்கப் புலப் பணிகள் துறைசார்பாகத்தெடுக்கப்பட்ட கிராமங்களிலும் அதைக் கற்றியுள்ள பகுதிகளிலும் வாழைச் சாகுபடி அதிகம் உள்ளது. இதைப் பயன்படுத்திக்கொள்ளும் வகையில் கிராமப்புற பெண்களின் மேம்பாட்டுக்காக குமாரவயலூரில் உருவாக்கப்படும் பயிற்சி நிலையம் மூலம் இக்கிராமத்தில் உள்ள சுய உதவிக் குழு உறுப்பினர்களுக்கு வாழை நார் தயாரித்தல் பயிற்சியளித்து தொழில்முனைவோராக உருவாக்கப்படுவர்.

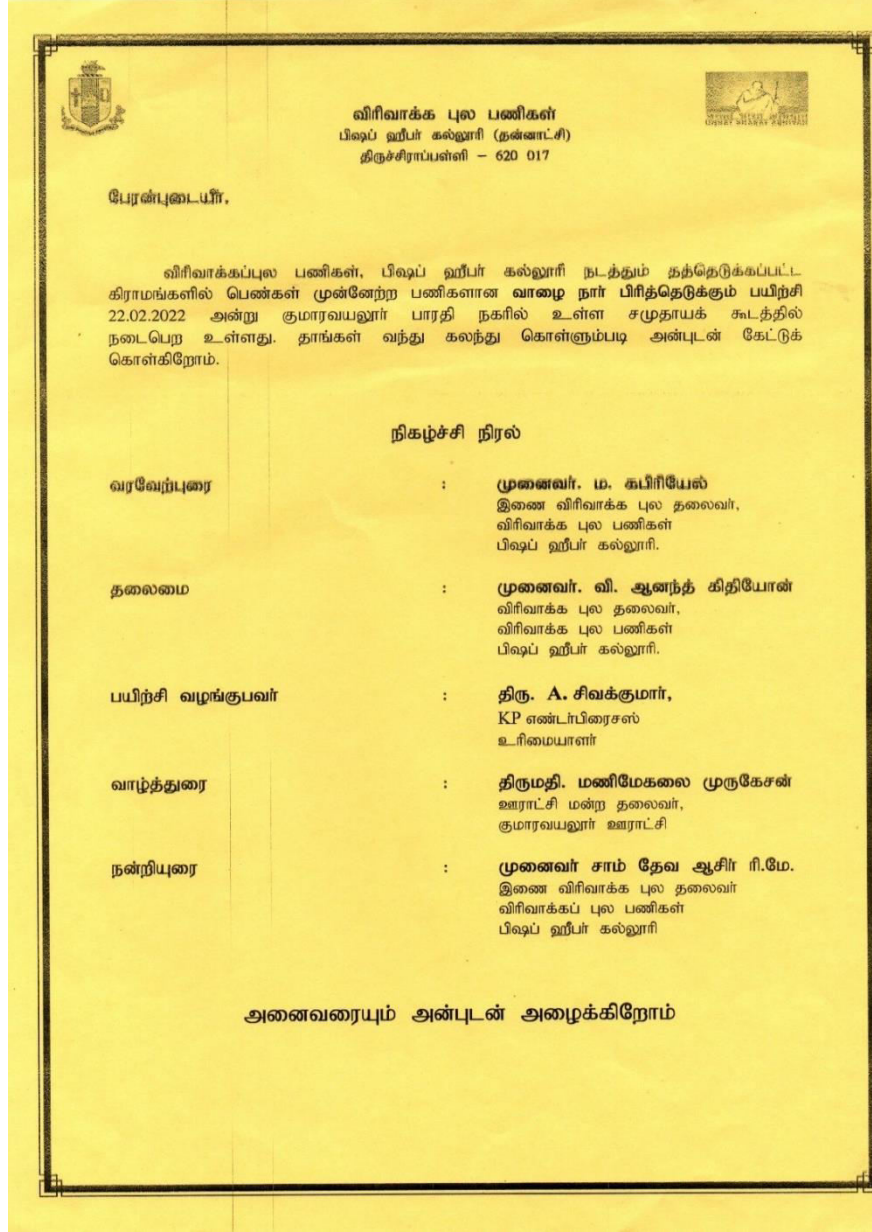

வாழைத்தண்டில் இருந்து நார் பிரித்தெடுப்பதன் மூலம் உருவாகும் அதன் கூழ் உரமாகத் தயாரிக்கப்பட்டு பயன்படுத்தப்படும் என்றார் அவர்.

தொழில்முனைவோருக்கு இந்த வாய்ப்பை ஏற்படுத்திக்கொடுத்த விரிவாக்கப் பணிகள் துறையின் முதன்மையர் ஆனந்த் கிதியோன் மற்றும் திட்டப்பணியாளர்களுக்குப் பாராட்டுத் தெரிவிக்கப்பட்டது. நிகழ்வில், கல்லூரி நிர்வாகத்தினர், திட்டப்பணியாளர்கள் கலந்துகொண்டனர்.

ACTIVITY: 13

Name of Activity: Entrepreneurship Development Programme

Need of the Activity: For the Benefit of SHG members

Description 200 words (along with the Pictures): A socio-economic incubation project in Kumara Vayalur village promises to empower rural women by training them to draw fibre from the pseudo-stem of the banana plant, a part that is often discarded or sold by farmers for nominal prices in the market. The programme on banana fibre extraction, which included installation and operation of the 'Banana Star' extractor machine, was organised by the

Deanery of Extension, Bishop Heber College in collaboration with Tamil Nadu Rural Transformation Project, the State Department of Rural Development and Panchayat Raj.

A training programme was initiated for 15 members of a women's self-help group in Kumara Vayalur, to help them create value-added products from banana fibre. Since the district is a hub of banana cultivation, there is significant potential to develop the fibre into biodegradable goods like bags and garlands. This will also generate employment and income for women. Banana fibre bags could easily become an alternative to plastic variants, and the project could explore this further in the coming months. Banana Star, manufactured by KP Enterprise, Tiruchi, can process up to 120 pseudo-stems in an eight-hour shift. It has been certified for its efficiency by ICAR-NCRB (Ministry of Agriculture).

"This is a labour-intensive activity, and is ideally performed directly on the field, to minimise the cost of transporting the waste material, that can be used as natural fertiliser. At least three women are required to team up for the process. The machine could help banana farmers to monetise pseudo-stems. "In Tamil Nadu, the extractor costs ₹1.3 lakhs, and financial assistance is available from the government for those who want to buy it. For 100 banana stems you will get 10-12 kg of dry fibre. It may take up to 10 days for the fibres to be extracted from 1000 trees on one acre. The machine's investment can be re-earned within a year if it is used effectively. The fibre has to be dried in the shade for a day before it is ready to be used

A project to empower rural women

Training in banana fibre extraction will help produce biodegradable goods

NAHLA NAINAR
TIRUCHI

A socio-economic incubation project in Kumara Vayalur village promises to empower rural women by training them to draw fibre from the pseudo-stem of the banana plant, a part that is often discarded or sold by farmers for nominal prices in the market.

The programme on banana fibre extraction, which included installation and operation of the 'Banana Star' extractor machine, was organised by the Deanery of Extension, Bishop Heber College in collaboration with Tamil Nadu Rural Transfor-

mation Project, the State Department of Rural Development and Panchayat Raj.

"We have initiated a training programme for 15 members of a women's SHG in Kumara Vayalur. Since the district is a hub of banana cultivation, there is significant potential to develop the fibre into biodegradable goods like bags and garlands," V. Anand Gideon, Associate Professor and Head, Department of Botany and Dean, Extension Activities, told *The Hindu*. Mr. Gideon said banana fibre bags could easily become an alternative to plastic variants, and the project could explore this

further. "We are encouraging farmers in Kumara Vayalur to buy their own extractor machines, with the help of government subsidies," he said.

Banana Star, manufactured by KP Enterprise, Tiruchi, can process up to 120 pseudo-stems in an eight-hour shift. It has been certified for its efficiency by ICAR-NCRB (Ministry of Agriculture). "This is a labour-intensive activity, and is ideally performed directly on the field, to minimise the cost of transporting the waste material, that can be used as natural fertiliser. At least three women are required to team

up for the process," said A. Sivakumar, proprietor of KP Enterprise.

Mr. Sivakumar, who is also a consultant on the Kumara Vayalur project, said that the machine could help banana farmers to monetise pseudo-stems. "In Tamil Nadu, the extractor costs ₹1.3 lakh, and financial assistance is available from the government. For 100 banana stems you will get 10-12 kg of dry fibre. It may take up to 10 days for the fibres to be extracted from 1,000 trees on one acre. The machine's investment can be re-earned within a year if used effectively," he said.

Description 200 words (along with the Pictures):

National Service Scheme organized Special Camp 2021-2022 during 6th March to 12th March 2022. Tiruchirapalli Govt of India Shri K Devi Padmanabhan in his presidential address urged NSS students to continue creating awareness about Swachh Bharat Abhiyan to people. He said that Swachh Bharat Abhiyan was launched by Prime Minister Shri Narendra Modi on October 2, 2014 and the aim was to make India outside defecation free. He pointed out that 11 crore individual household toilets have been built under SBM in rural areas apart from 62 lakh individual household toilets in urban areas. He said that Swachh Bharat Urban phase II has been launched last year aiming at garbage free areas through door to door waste collection. He spoke about Jal Shakti Abhiyan and importance of providing drinking water to people. He asked students to create awareness of judicious use of water as it is precious. He spoke about grey water management to treat waste water. He urged students to create awareness about using cloth bags instead of

plastic bags. He said that plastic can cause cancer and how it blocks the water level. Biodegradable waste can be used as organic fertilizers while bio-nondegradable waste should be segregated and given to save environment. He said that India is largest democracy in the world and as part of 75 years of Independence Regional Outreach Bureau Tamil Nadu under Union Ministry of Information and Broadcasting is organising photo exhibition at Schwartz Hall Trichy from March 9 to 13. He urged students to see this exhibition and get inspired by sacrifices of freedom fighters and unsung heroes who fought for freedom.

Shri K Ravindran Field Publicity Assistant FOB Tiruchirapalli spoke about Beti Bachao Beti Padhao. He said that the scheme was launched in 2015 as number of girl children got reduced in many villages. He said that many schemes are being implemented by the government for the welfare of women and girl child. Pamphlets and notices on Swachh Bharat Abhiyan and Covid vaccination were distributed.

NSS Programme officers of Bishop Heber College Tiruchirapalli Dr P Paul Ajith Kumar, Dr P Thiagaraju, Dr R Ravi, Dr T Nachimuthu, Dr J Joonu, Dr S Annal Ezhil Selvi organised the programme.

ACTIVITY: 15

Name of Activity: World Water Day Celebration

Need of the Activity: For the Benefit of Village Community People
