US CMA (Certified Management Accountant) is a globally recognized, advanced-level qualification appropriate for accountants and financial professionals in business.

Achieving the CMA demonstrates professional expertise in financial planning, analysis, control, decision support, and professional ethics – skills that are in demand by organizations around the world.

In partnership with IMA (Institute of Management Accountants - USA), Wiley and Miles Education, the US CMA has been integrated into the B. Com (Strategic Finance) curriculum such that students will cover all the 12 core competencies covered on US CMA. Thereafter, in Semester VI, students will be expected to appear for and pass the two CMA examinations:

- **Part 1 - Financial Planning, Performance & Analytics**
- **Part 2 - Strategic Financial Management**

For more information on the US CMA program, visit www.imanet.org or www.mileseducation.com/cma
