Tiruchirappalli -620 017, Tamilnadu, India

ENERGY POLICY

Bishop Heber College (Autonomous) endeavours to integrate best environmental practices for environmental protection and sustainability. The Policy implies the use of renewable energy resources and accomplish Sustainable Development goals.

OBJECTIVE: Cost effective energy utilization and energy conservation measures of the College include installation of solar panels to tap renewable solar energy in a phased manner, replacement of conventional lamps by LED lights, orienting staff and students to energy efficient practices.

- Minimize energy consumption by use of Energy efficient equipment and maximum use of day light, natural ventilation and energy substitution.
- Create awareness about Energy conservation.
- Encouraging staff and students to use bicycles on college campus and ensuing 'No Drive Day' for every semester to promote public transportation to reduce fuel energy.
- Production of biogas and vermicomposting from wet degradable wastes.
- Install Solar panels for the generation of alternate energy.
- Develop and maintain an Energy Management System based on ISO:50001
- Encourage use of advanced technology to minimize energy consumption.
- Provide information and training opportunities on energy saving measures.
